THE DECOR STORY OF THREE

About us

Sanish Laminate is a brand which runs parallel with excellence. Every design is created with a lot of love and appreciation for patterns and textures. Our range of laminates offer powerful elements to add to decor. Your home and spaces will sparkle with serene glow.

Choose the best laminate from our collection for your spaces and enjoy your new lifestyle.

THE DECOR STORY OF THREE

Infuse your space with a symphony of style and sophistication

Anti Bacterial Laminates

These laminates possess the characteristic of inhibiting or killing the growth of bacteria on their surface, thus preventing the spread of harmful pathogens.

Impact Resistant

Our surfaces are sturdy enough to endure severe impacts like those caused by hammers.

Surface Protection Tech.

SPT developed first time in india by Amulya Mica, gives your laminate additional strength to withstand stains and scratches more effectively.

Post Forming Laminate

Sanish laminate post forming laminates are made to roll in a radius over the edge of a substrate. With an added flexibility a malleability for both forward & reverse bending.

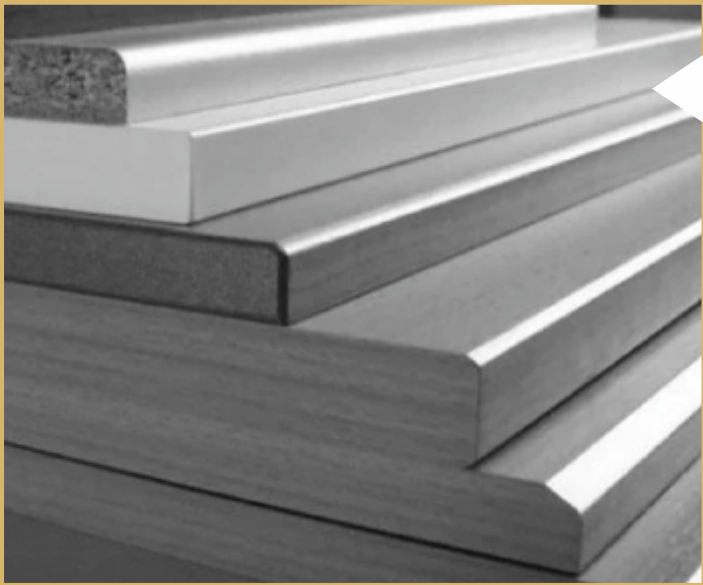

Scratch Resistant

A range of super gloss laminate that offer a high level of resistance to scuff, MAR (micro scratches) & abrasion which maintaining 4 time longer shine then any other used laminate. Application, it gives no seams around corner & are smooth & evenly laminated. This laminates can be formed into simple cylindrical concave or convex curves.

Moisture Resistant

Our surfaces are impervious to water or moisture and remain unaffected by their presence.

10 years warranty

Our Laminates provide customers with a guarantee that it will remain free from defects for a period of 10 years from the date of purchase.

Low Emission

Characterized by their minimal release of harmful volatile organic compounds (VOCs) into the environment, our laminates are designed to improve indoor air quality by reducing the level of pollutants that can cause health problems.

Termite Proof

This property possesses the characteristic of being impervious to termite infestations, preventing the insects from damaging or feeding on the Laminates and infusing in them long-lasting protection and durability against termite attacks.

Heat Resistant Fire Retardant Laminate

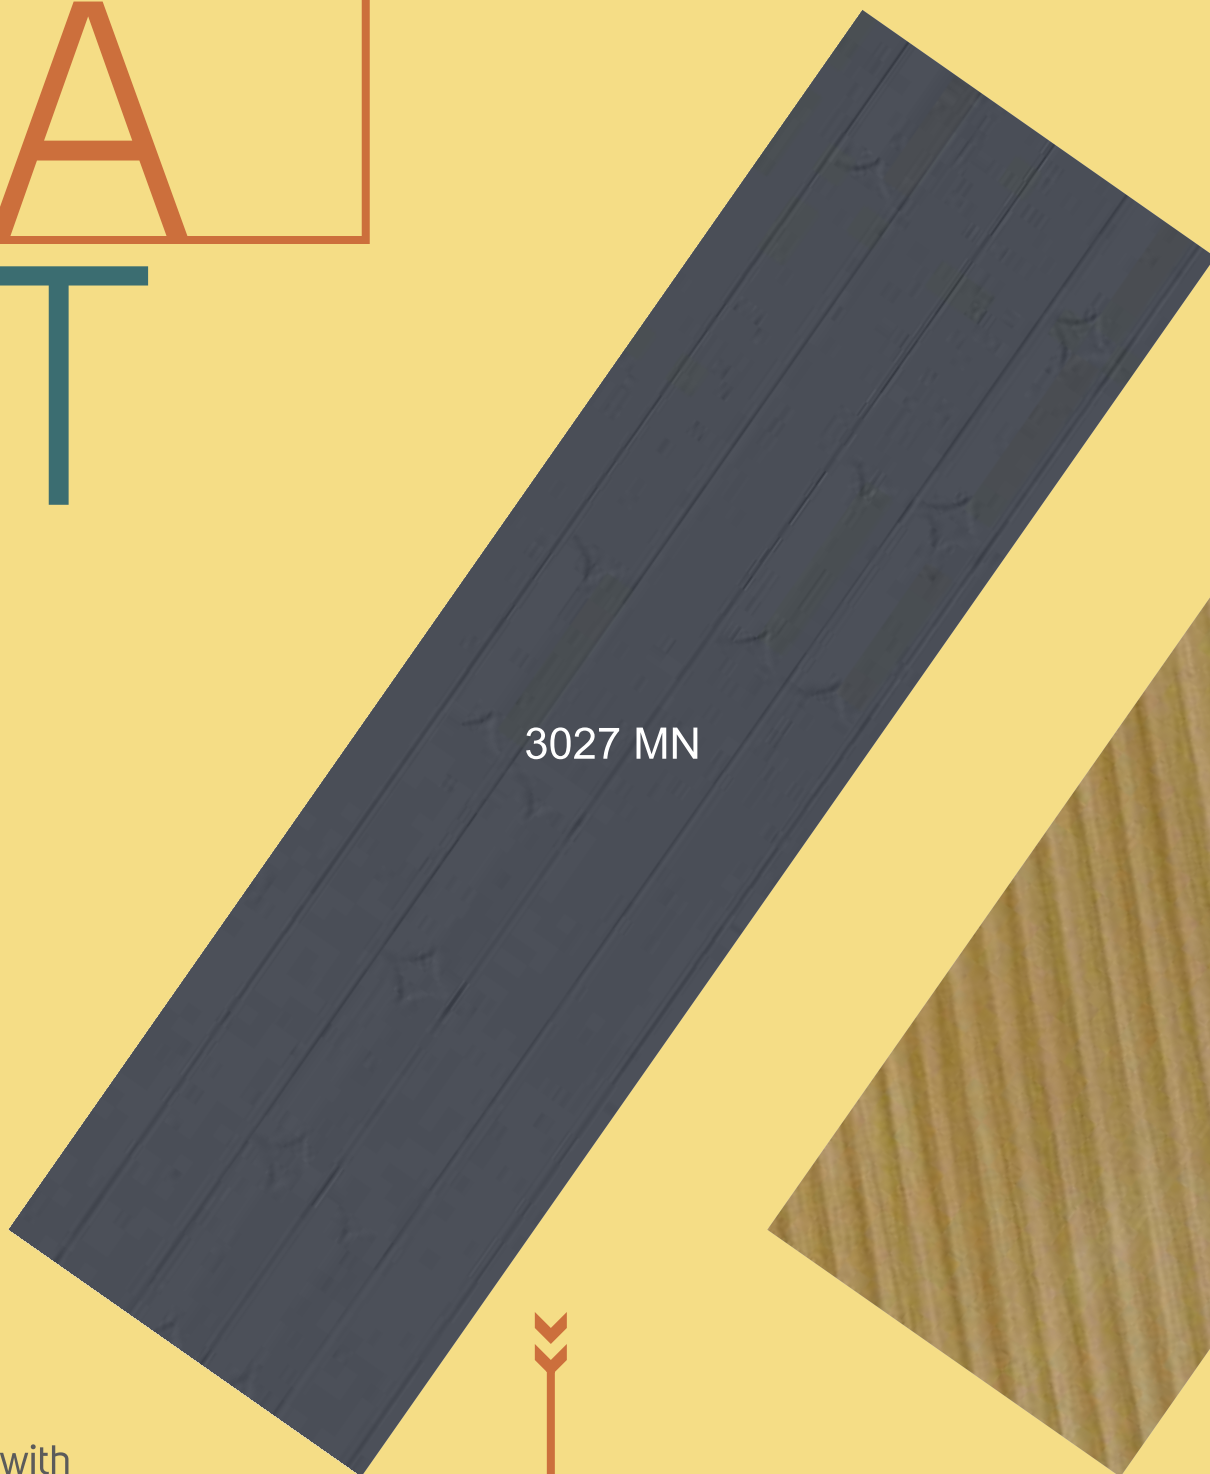

Sanish Fire retardant laminate have superior resistance to flame propagation & are designed to perform in demanding environment .This laminate has low propagation of flame a high resistance to steam & delays in temperature rise.

Product: High Pressure Decorative Laminated sheets

Size: 2440mm x 1220mm (8'x4')

Product conformity to: British European Standard – BS EN 438, American Nema ID-3, BIS (Bureau of Indian Standard) is 2046.

Limited Warranty: SANISHTHRE3 warrants that its products are reasonably free from manufacturing defects. The products when properly used, will comply, with normal deviations, to related manufacturing specification. This warranty shall be limited only to the original buyer for a period of one (1) year from the date of dispatch by SANISHTHRE3. It excludes damage resulting from accidents, abuse or lack of care, improper use and/ or any alternation. It is recommended that the product must be inspected prior to installation and our liability will be limited to the extent of the cost of the product only.SANISHTHRE3 Laminates are used for various applications, without the possibility of control over the manufacturing of the finished product. The company does not assume obligations or liabilities arising from the furnishing, sale, installation or repair, use or subsequent sale of any product, to any person or entity.

Care & Maintenance: Cleaning should be carried out with a soft moist cloth and warm soap solution. Do not use detergents containing abrasive particles or excess soda.

Note: Samples presented are indicative of colour, pattern and surface finish but not actual thickness. For actual thickness of product, please check the sample attached above or check our actual products with our distributors/ dealers/ stock point or SANISHTHRE3 Gallery.

No claim will be entertained for air bubbles

Cutting a laminate sheet at an angle of 90 degree leads to development of cracks in corner after pasting. Therefore it is advisable to avoid cutting at an angle of 90 degrees.
